- 9. BRIEF DESCRIPTION OF THE PROJECT OR IDEA:**

The project primarily aims to create work opportunities for young persons coming from lesser opportunity backgrounds. Workshops will be carried out which last a whole year and will include personal development, healthy lifestyles and business planning which will be carried out with the youths, whilst these are working in established companies willing to sponsor the youth and train them to work in the companies. The companies will engage the youth in different sectors such as finance, human resource management and other departments which complement each other. After the completion of the year, the youth will then get together and create a business of their own using the experience they got in the different complementary sectors.
